

BECOMING AN ANIMATOR

(EXACT STEPS)

You can be a GOD!

24 pictures = 1 second of life!

discover the magic of animation

make weird, experimental mad stuff for a bit

make a short film and enter it into as many festivals as you can

it only takes one film to get you noticed

Keep going!

The more people you contact, the more chance of success.

make a portfolio site and fill it with your best work

find people you admire and reach out to your heroes (animators are very nice!)

Be selective

Do your research - find studios that you would like to work for

think of clever ways to approach them

like music and art, and all things creative

love playing with pictures and bringing them to life
